Objective

My goal is to obtain a position as a junior developer where I can continue to grow while making solid contributions. My ideal job would be any place that values quality work because I take pride in the work that I do and I work hard every day to better myself and make sure that my work reflects that.

Education

LEARN academy, San Diego, CA (10/17 to 2/18) – A full time immersive JavaScript bootcamp.

Anoka Ramsey Community College (9/13 to 12/16) – General Studies

CS50 - Online Computer Science course provided by Harvard and Yale University.

Experience

Notch8 (San Diego, CA), Full Stack Junior Developer Intern   **February 2018-Present**
- Write full stack questionnaire forms in React with dynamic validations
- Convert old Angular 1 components to React
- Write in depth tests to ensure maximum coverage

LEARN academy – Team Projects
- "Great Date" **–** https://github.com/4guys1terminal/great-date
- "Battleship" – https://react-battleship-app.herokuapp.com/

Sample work – Personal Project, "All-Sales"
- https://all-sales.herokuapp.com/home (work in progress)
- https://github.com/danielh70/all-sales

Skills

JavaScript, HTML5, React.js, Redux, Node.js,

JQuery, Express.js, SQL, Git, TDD, Jest, Enzyme, Bootstrap, CSS3, Ruby, Rails

About Me

I moved to San Diego from Minnesota where I found my passion for coding and recently completed a full-stack JavaScript boot camp at LEARN academy. I pride myself on being a fast learner and methodically working through and solving complex problems.

I enjoy keeping up with current events and watching sports. When I'm not reading the news or watching a game, you can most likely find me on my computer writing code.

I have worked a variety of jobs while attending high school and college. My most recent employer, Screen Medic, in Minneapolis, awarded me with the "Rookie of the Year" award for being a fast learner and in my third year I was awarded with the "Five Star General" award for receiving the most five-star reviews on sites such as Yelp and Google.
